

Summary

Objective

The transition service is for a child or adolescent transitioning from SPARS to an equivalent adult service.

Owner **Name Withheld**

Expert **Name Withheld**

Procedure

1.0 Who is this service for?

- a** When an adolescent is approximately 15 years old, SPARS will consider through a reassessment whether the client should be transferred to an equivalent adult service, eg specialised spinal cord injury rehabilitation services.

2.0 Key features

- a** SPARS will meet with the client and their family and whānau to help identify appropriate onward services
 - b** SPARS may also attend a joint meeting with the adult service if required
 - c** If further assistance from SPARS is required once the client has been transitioned to the adult service, this can be provided through the SPARS advisory component
 - d** This transition service is funded from the programme funding so purchase orders are not required.
