GOV-025422 Appendix 1

Description:

Number of referrals for Vocational Rehabilitation Services contract holders for Stay at Work programmes made between 1 June 2022 to 31 May 2023.

Number of referrals for Vocational Rehabilitation Services contract holders for Back to Work programmes made between 1 June 2022 to 31 May 2023.

Notes and caveats:

The data in this report are based on purchase orders created for Vocational Rehabilitation services.

A single purchase order might include more than one service, especially where a service was added to an existing purchase order after the initial referral.

In order to minimise this, services are excluded if they were added to a purchase order after the initial purchase order creation date.

This means that if a referral is made to a supplier for Stay at Work Stage 1, and then Stay at Work Stage 2 was added after, that purchase order will only count as a referral for Stay at Work Stage 1 for this report.

If a purchase order is created with more than one service on it, then it will be counted once for each relevant service in this report.

There are 11 suppliers who held the Vocational Rehabilitation Services contract in the requested time periods. These suppliers are all represented in all tables, even where they did not receive any referrals for services in the relevant time period.

Region and Territory local authority are derived from the client's current residential address, which may differ from their address when the service was provided. If there were no referrals for a specific location in a period, the region / territory local authority (TLA) is not included in the table.

The data was extracted on 08 June 2023 and may differ if extracted again at a later date.
