RELEASED UNDER THE  
OFFICIAL INFORMATION ACT

## Summary

### Objective

We calculate a client's independence allowance (IA) when their whole person impairment (WPI) has been assessed for all eligible injuries. The calculation is based on the impairment percentage for those injuries. The IA is paid quarterly.

Unlike some other types of ACC assistance, there is no maximum duration for which a client can be eligible. Clients are eligible as long as they have the impairment, or until they die, become ineligible (disentitled) or have their eligibility suspended.

See Suspension and Disentitlement overview.

## Policy

### 1.0 Rules

- a** Eligibility for IA takes effect as defined in the following business rules.

-  Date to apply a decrease to an independence allowance entitlement when client does not have a SPO
-  Date to apply an increase to an independence allowance entitlement when client does not have a SPO
-  Date to apply an increase to an independence allowance when client has a SPO
-  Date to apply a decrease to an independence allowance entitlement when client has a SPO
-  Backdated Independence allowance for a person who has not previously received a s78 lump sum entitlement
-  Backdated Independence allowance for a person who has previously received a s78 lump sum entitlement
-  Independence allowance payment end when client dies

- b** All independence allowances are:
- calculated on a weekly basis
  - paid quarterly in advance (13-weekly).

See Weekly and quarterly rates of allowance to see the current amounts payable for each impairment percentage.

-  Weekly and quarterly rates of allowance  
<https://go.promapp.com/accnz/Process/2d0d28a1-3d>

### 2.0 Level of payment for multiple claims with previous 1972/1982 Act lump sums

- a** A client cannot be compensated for the same injury twice. A client who previously received a lump sum under the 1972/1982 Acts must have the percentage of that lump sum compensation deducted from their current WPI for injuries suffered before 1 July 1999.

See AI Act 1998, Part 13, Section 442 (2a).

### NOTE Example

The client received a lump sum of 15% under the 1972/1982 Act. Their current WPI assessment for combined IA is 30%. Their IA is 15%.

### 3.0 Maximum for mental and behavioural impairments

- a** If a client has more than one mental and behavioural impairment and the total of these impairments is more than 100%, the maximum amount we pay the client is the rate for a 100% impairment.

The impairments must have come from more than one request. This includes IA requests that are already being paid, as well as new requests.

If the requests are subject to this maximum, we must reduce the amount paid on the most recent request with this type of impairment so the total payment is the 100% rate.

### 4.0 Payments for children under 16 years

### 5.0 Overseas clients

- a** Under AC Act 2001, Section 379(2), if IA is payable outside New Zealand and we need to assess the client's right to receive the payment. We are not required to meet either of the following costs:

- any costs incurred by the client overseas
- any costs relating to the return of the client to New Zealand for assessment.

Although there are exclusions to what we're required to provide, extra support may be provided depending on the client's situation or individual needs.

Next review 10 Jul 2021

## Effective date

These rates are effective from 1 July 2020 to 30 June 2021.

## Introduction

The amount of independence allowance (IA) payable to a client is based on the percentage of impairment they're assessed as suffering using the American Medical Association (AMA) Guides assessment method.

The IA amount payable increases each year by the relevant indexation amount. To view previous IA payment amounts, see [Historical independence allowance rates](#).

## Rules

### Previous lump sum payments

If a client has been paid a lump sum under the [AC Act 1972, Section 119](#) or the [AC Act 1982, Section 78](#):

- the amount of the old lump sum paid is converted to a percentage. See the following table
- the percentage is deducted from the assessed whole person impairment (WPI) percentage
- the entitlement is based on the difference. The minimum required to receive an entitlement is 10%.

### IA weekly and quarterly payment amounts

The following table shows the current IA payment amounts from 1 July 2020 to 30 June 2021.

Increase from previous amount: 2.53%
